

Last Week At ADE...

Last week ADE hosted 2 days of continuing education seminars finished off by a Texas Hold'em tournament on Thursday night.

We had the opportunity to catch up with over 100 of our friends and colleagues, learned a little and had some fun during this time.

It was great catching up with everyone! We'd like to thank the HVAC community for their continued support as well as the ADE team for working hard to put the event together.

It was a close matchup with Matt Liff of Lizardos taking home the winning chip!
